## Outdoors

### **Safeplay Outdoor Carpet** - An innovative child friendly carpet ideal for play areas

Wherever kids play on the ground or on play equipment the correct ground covering is essential to keep them both safe and clean.

Our Safeplay Outdoor Carpet provides a soft clean solution suitable to cover most surfaces.

Generally installed with our specialist rubber matting you can create a safe floor covering with a substantial critical fall height ideal for when play equipment is involved.

An outdoor space can become part of a child's development and education, we can help provide somewhere clean and safe, an ideal recreation area suitable for outdoor learning and play.

### **Artificial Grass**

Installing artificial grass in a play environment can provide a safe, clean, stimulating outdoor area that children will be able to use whatever the weather.

A wide variety of qualities ensure suitability for all types of use, the perfect solution for a low maintenance, environmentally friendly surface.

### **Schoolservicesuk.co.uk**

Dedicated to helping schools get the best from their flooring and outdoor areas we have a specialist team of installers and estimators ready to help with all your flooring needs at the very best competitive prices.

Our installation team are fully qualified with CRB clearance and we are CHAS and Constructionline accredited for total peace of mind.

For all indoor spaces suppliers include Heckmondwike, Rawsons and Gradus as well as safety flooring by Polyflor and Altro.

If you are thinking of replacing or repairing your school flooring, find it necessary to increase parking facilities or improve your outdoor play areas we can work with you to create the perfect solution.

Contact us now for a free no obligation quote or site visit.

### **Why use Wet Pour?**

Rubberised safety surfacing reduces the likelihood of injury due to its cushioning and impact absorbing qualities. Increasingly local and regional authorities are becoming insistant on safety surfacing being installed in school playgrounds in order to maximize play and minimize injury.

From design to installation we can help you create a stunning and fun playground safety surface which is stimulating for your children. The wetpour surfacing allows you to create coloured designs and artwork, games markings and images for an exciting Outdoor play experience.

## Grass Protecta - The solution to additional parking needs!

An ideal cost effective solution for temporary or permanent car parking on grass!

Our Grass Protecta mesh can provide you with additional parking areas without costly ground works whilst keeping a green field site.

Easily installed this UV stabilized polyethylene mesh reinforces the surface to help prevent rutting where extra space is required.

The oscillated structure allows the grass to grow through the mesh creating a strong discreetly reinforced surface capable of withstanding vehicle loads, limiting damage and reducing soil compaction.

This can also be used as part of sustainable urban drainage system (SUDS) and is the perfect alternative to impermeable paved surfaces when natural grassed routes are preferred or when planning restrictions are applied or cost savings are being considered.

Laid now in thousands of areas grass protecta is proving to be the answer for a quick, cost effective solution to the growing need for carparking space.

## Flooring for your individual needs Contract carpet tiles and safety flooring

The school environment is perhaps the greatest test for any floor covering. From the smallest village school to some of the largest educational buildings we have supplied and installed quality flooring to help create the perfect environment for learning.

Your flooring needs to be hard wearing yet aesthetically pleasing and be able to withstand the demands of a school environment, the choice we have available can help create functional engaging spaces as well as provide contrasting areas for individual learning.

In areas requiring the need for safety flooring our qualified installation team can provide a safe clean area for pupils and staff alike.

If you're thinking of any flooring work whether renewing or repairing we can offer you a complete supply and installation service or just supply or advice only, we are here to help at any time now or in the future.

### Give your school an identity!

Impress your visitors with a custom printed entrance mat showing your schools logo and message.

Even get the children involved in the design and we can supply your individually designed mat. All we need is a few details and a copy of your logo.

What could be more important than children's safety while playing? At school or in any other play area, **Grass-Play Mats** can provide protection from falls, trips and the general physical activity when kids play together.

If you need a big door mat for your school we can supply **coir matting cut to size** to fit a matwell or lay on the floor surface. This quality coir matting performs brilliantly in any busy, high traffic situation.

It gives superior protection to your floors, has a long life and is excellent value for money.
